BATHROOM NEWS

Under wraps

Despite being hidden from view, a leak-proof system with good drainage is crucial to the success of a wet room. Unislope's floor slopes come in a range of widths and thicknesses, which can be trimmed to size and sealed. Unislope Elegance IK wet room system, £2,473; towel bar, £505; soap shelf with magnetic wiper, £732; Vola showerhead and control with handset in matt black, £4,241, all Alternative Bathrooms. (020 3375 9002; alternativebathrooms.com)

Surface pattern

Explore the possibilities of concrete as more than just a building material. It can be cast in any shape, and this new collection shows off three different patterns. The Elm basin (above) in Storm with linear pinstripe pattern is from the Kast Canvas range by Kast Concrete, available in 22 colours from Ripples. (0800 107 0700; ripplesbathrooms.com)

Geometry lesson

Offset triangles in dark grey add definition to this pale grey ceramic flooring, which has just been launched as a complement to the existing Harmony collection of marble-effect wall and floor tiles. HD Harmony Feature Floor tiles, 33x33cm, £32.85 per sqm, British Ceramic Tile. (0845 618 7144; britishceramictile.com)

Work out

Coming soon to the UK is Scavolini's innovative Gym Space, which transforms a bathroom into a fully operational fitness studio (07818 260 990; scavolini.com). A customisable frame is the base for both bathroom components and gym equipment, such as a bench or pull-up bar. Other accessories including lights, storage and mirrors can also be added for a personalised scheme.
